DES/HOD Cisco Connect

Part 1-VPN Connection

1. Right click the Cisco VPN Icon from your desktop or the (system tray) bottom right hand corner arrow.

2.On the "Cisco AnyConnect VPN Client" window, enter:

• VPN.AZDES.GOV/Portal

and press the "Connect" button and enter your USERNAME and PASSWORD.

Cisco An	VPN: Ready to conn VPN.AZNET.C	ect.	• c	Connect
0 0	Cisco AnyConnect	I VPN-AZNET.GOV	2	cisco
	Please enter Username: Password:	your username and	password.	
		ок	Cancel	

3. Upon successful VPN connection a "white icon with a yellow lock" will appear on the taskbar near the clock.

Part 2-DES Mainframe Login

1. To Login to Mainframe first double click QWS 3270PLUS

2. Click Connect

3. Type in Login Credentials

A list will appear if you press enter and don't type a command. Type a command and press enter and it will skip the list.
